- Child Neurology Society

### SUMMARY OF EXPERIENCE

Before joining HMF, Dr. Van Hirtum-Das was an assistant professor of pediatric neurology at the University of California Los Angeles, where she worked as part of the epilepsy surgery team.

She then transitioned to private practice and founded Child Neurology of Beverly Hills, Inc. During this time, she also served as a *per diem* physician in pediatric neurology and neurophysiology for a major medical group.

Dr. Van Hirtum-Das currently works as a regular consulting physician in pediatric neurology and neurophysiology at Childrens Hospital Los Angeles. She performs consultant work as well at Valley Presbyterian Hospital and Northridge Hospital Medical Center.

During her college years, she worked in community clinics and hospitals in Boliva and Honduras. She was awarded two research grants, and participated in five additional research programs.
